

**Product Name :**  
Inverter Based TIG / ARC Welding

**Product Code :**  
AST-WED0001

**Description :**

Inverter Based TIG / ARC Welding

**Technical Specification :**

Inverter Based TIG / ARC Welding are the latest technological answer to all your welding needs & concerns. Extremely Light weight, Robust and Portables. High performance Integrated Electronic Circuit to deliver maximum Output Superb precision from low to high current range.

Function and Specialty:

Small measurement, portable and multi purpose welder.

Simple operation, strong welding penetration

MMA have “arc force” adjust function have digital display.

Easily arc-starting, stable current, high speed of dynamic response; noise-free;

Beautiful welding seam

Can weld many sort of metal such as stainless steel, alloy steel copper etc.
