

Product Name :
DC Welding Rectifier

Product Code :
AST-WED0002

Description :

DC Welding Rectifier

Technical Specification :

In order to cater to the diverse requirements of honorable clients, we are able to offer DC Welding Rectifier. The offered range of DC welding rectifiers is made utilizing high grade raw material and highly advanced technology in strict compliance with the international quality standards. Along with this, the offered range of DC welding rectifiers is suitably tested on different characteristics to ensure that flawless products are delivered at customers' premises.

Special Features:

High open circuit voltage

Soft melting weld and stable arc

Have good quality of weld

Power saving
