

<b>Product Name :</b> DC Welding Rectifiers	<b>Product Code :</b> AST-WED0008
--	--------------------------------------

<b>Description :</b>
DC Welding Rectifiers
<b>Technical Specification :</b>
<b>DC Welding Rectifiers</b> is designed by TTF technology, Welding Rectifiers are appreciated trouble free performance and non-corrosive frames. These energy efficient equipment are suitable to weld ferrous as well as non-ferrous, metals.

Offered at most competitive price, this equipment is an ideal source for GTAW (TIG/TAG) welding and are extensively used in railways and cement, military & aviation industries.
